Presentazione

Meccani design è una Ditta che progetta e realizza oggetti d'arredamento di alto artigianato con l'esperienza maturata in tre generazioni . Tutti i prodotti vengono pensati e costruiti in Italia , in Toscana , presso il proprio laboratorio di Cascina (Pisa) ed esprimono un forte legame con il territorio sia nel processo produttivo altamente innovativo e tecnologico , sia nel design che rispettando la tradizione del mobile toscano coniuga il gusto e lo stile contemporaneo tipici del made in italy .
Mobili moderni con gusto classico , resistenti , senza tempo in cui un materiale naturale , il legno , incontra la fantasia e l'abilità artigianale per valorizzare l'ambiente in cui viviamo . Innovazione e classicità , con i migliori materiali e tecnologie per assicurare un'alta qualità da tramandare oltre le mode . Il grande senso di rispetto per la natura e l'assoluta ricerca di simbiosi con essa , consente di progettare e costruire in modo sostenibile , con il minor impatto ambientale , riducendo gli sprechi energetici , utilizzando al meglio materiali naturali , rinnovabili e biocompatibili . Un mondo verde fin dalla scelta di materiali atossici e legname ricavato da foreste tutelate . Mobili realizzati in legno massiccio , perché il legno è bello , caldo , profumato ; è una risorsa rinnovabile , robusta , solida e viva .

Introduction

Meccani design is a company that designs and produces furniture items of superior craftsmanship with three generations of experience. All products are designed and manufactured in Italy, Tuscany, in its laboratory located in Cascina (Pisa). They have a strong tie with the territory as for the highly innovative and technological production process and the design while maintaining the Tuscan furniture tradition. It also combines the taste and contemporary style typical of Made in Italy.

2

The modern furniture has a classic, durable, timeless taste where a natural material, wood, meets fantasy and experienced hands to beautify the environment in which we live. Classicism and innovation, with the best materials and techniques to ensure a high-quality which goes beyond fashion. A great respect for nature and the sheer quest for integration, allows us to design and build in a sustainable way, with the least environmental impact, reducing energy waste, using natural, renewable and biocompatible materials at their best. A green world, with the choice of non-toxic materials coming from certified forests. Furniture made of wood, because wood is beautiful, warm, fragrant, renewable, robust, solid and it is also an alive resource.

Презентация
